UNIQUE OUTDOOR RETREATS

What is your idea of the perfect backyard? Is it a relaxing retreat? A family-friendly play zone? A canvas for your green thumb? With great landscaping and a good imagination, the possibilities are endless! Take a look at what NARI members created for Milwaukee-area homeowners to make their backyard dreams a reality.

Modern Treehaus

After a tornado destroyed their original tree and tree house, these Kimberly homeowners wanted to build an updated, modern structure that could be shared by all generations of their family. To emulate the look and feel of a real tree, this Treehaus was built with cedar timbers and willow bark shingles. Whether the homeowner is practicing yoga, or the grandchildren are steering their “pirate ship,” this Modern Treehaus is a beautifully unique addition to their outdoor space.
